The following is an examiner's statement of reasons for allowance: Claims 1, 4, 5, 7, 10-15, 18-21, 24-29, 70-72, 77-79 all define over the art in that they all recite that the index finger portion is at least as long as the middle finger portion. As applicant pointed out in the remarks dated 4/7/2994, there is criticality to this design. None of the art shows this feature. As such, the claims define over the art.

In addition, this feature is non-obvious and not taught in any of the prior patents. As such, no double patenting rejection is pertinent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is 571 272-4731. The examiner can normally be reached on m-f 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor II can be reached on 571 272-4730. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
